Anne Simin Shitrit © Maïa Aboualiten

The Porosus Endowment Fund and Thanks for Nothing are pleased to present the new support program for 3 emerging international artists: «Emerging Artists from Here and Elsewhere».

This new annual program aims to provide strong and meaningful support to 3 emerging international artists currently based in France.

Their artistic practice demonstrates excellence and their personal journey is equally committed and exemplary, hence deserving guidance and visibility in their careers.

Together, we aim to highlight and celebrate international creation within the French cultural landscape.

At a time of growing global polarization, we are committed to standing by foreign artists and recognizing their invaluable contributions to the French art scene.

THE 2025 LAUREATES:
